Douglas, Melrose, McNair Street, Olivia Court and Sunset Lane Residents  
New Haven, MO

**RE: 2021 Street Projects – Douglas, Melrose, McNair, Olivia Court and Sunset Lane  
Notification of Street Milling and Paving**

Dear Resident,

The City of New Haven will be completing the NovaChip overlay of Douglas (Melrose to McNair), Melrose, McNair (west end paved section), Olivia Court and Sunset Lane starting Monday, June 28, 2021, through July 2, 2021. The project will consist of certain areas receiving partial depth pavement repair, edge milling the entire project area, milling of transition joints and an overlay of NovaChip. NovaChip is not chip and seal, it is an asphalt wear surface. The schedule for the project is as follows, partial depth pavement repairs Monday June 28<sup>th</sup>, edge and transition milling Tuesday June 29<sup>th</sup> and paving Wednesday through Friday June 30<sup>th</sup> – July 2<sup>nd</sup>. **No on street parking** will be allowed between the hours of 6:30 AM to 5:00 PM during these days, June 28<sup>th</sup> – July 2<sup>nd</sup>. During the milling and paving process access to driveways will also be limited. If the milling or paving machine is in front of your residence expect a 30-minute delay for entry and exiting of the driveway. During the paving process portions of the streets will have to be closed for an extended period of time. We will try and maintain one lane of traffic for the residents during paving but expect delays of up to 30 minutes. We thank you for patience and cooperation throughout this project. If you have any questions or concerns, please feel free to contact me at Public Works (573) 237-3572, City Hall (573) 237-2349, or [peter.otten@newhavenmo.org](mailto:peter.otten@newhavenmo.org).

Sincerely  
Peter Otten  
Public Works Director
